Educational Seminar Focused on Saving Resources and Reducing Risks

The demands made on Food & Beverage companies are numerous. Veolia's water experts understand these issues and look forward to sharing information to help you with your water challenges.

This seminar is tailored specifically for food & beverage industry professionals interested in learning the best practices in managing the precious resource of water—**transforming it from a liability to an asset.**

This technical seminar will focus on topics including:

- > **GOVERNMENT OF ALBERTA INITIATIVES**
Introduction to the Ministry's role and programs for the F&B industry
- > **ENERGY FOR FOOD & BEVERAGE**
Delivering efficiency to F&B companies
- > **VALUE CREATION THROUGH:**
 - **DIGITALIZATION** - Aquavista™ Digital services platform for smarter water management
 - **WASTEWATER PRETREATMENT** - Reducing surcharge fees and generating by-products from the use of DAF and Discfilter technologies
 - **WASTEWATER BIOLOGICAL TREATMENT** - Reducing surcharge fees, and generating marketable by-products and green energy from the use of SBR, MBBR, MBR, UASB, and Memthane® (AnMBR) technologies
 - **ZERO LIQUID DISCHARGE** - Using evaporation to reduce sewer surcharge fees and recover by-products
 - **SERVICES FOR MORE VALUE & OPERATIONAL EFFICIENCY** - Creating value through: lab tests, piloting, mobile solutions, chemicals and operation & maintenance
- > **ABOVE & BEYOND "JUST WATER"**
Outsourcing operations/maintenance, total waste management, energy performance, and more

*The Seminar is Free to Invited Guests
Event May Qualify for Continuing Education Credits*
