

# afpa members: how to work with us

## 1 Join our Alberta Ingredient Database.

Do you want to get your product(s) into more restaurants in Alberta? Our Alberta Ingredient Database is an open-source listing service created especially for chefs and restaurants. Our restaurant partners don't often have a lot of time to spend sourcing out new products, so this database helps them to find the right suppliers in one place. It's completely free of charge to join. As AFPA members, you will receive "preferred partner" status alongside your listing.

## 2 Engage with us on social!

Throughout the year, we share a lot of Alberta food stories, from restaurant highlights to producer profiles to key industry stats to giveaways and more! Follow us on Instagram or like us on Facebook and help spread our food story around the world!

## 3 Become a Festival Supporter.

Want to show your love and support of the Alberta food story even more? Join us as a Festival Supporter, where your company will receive web and social promotion, mention in our monthly newsletter, invitations to attend our chef & producer networking sessions and more!

For more information on becoming a Festival Supporter, please contact Melody at AFPA.
